Workshop on Navajo and Western Perspectives on Math and Earth Science
Bluff, Utah ❖ June 14, 15, 16 & 17, 2016

Who Should Attend:
• Middle and High school Earth, Environmental, Integrated Science, or math teachers
• Navajo or Hopi teachers
• Teachers of Navajo or Hopi children
• Utah teachers of any diverse population

What to expect:
• Four days in the field exploring the landscape through the lens of “western” scientific and native perspectives
• Emphasis on scientific inquiry and working with students from diverse backgrounds
• One day exploring the natural corridor of the San Juan River on rafts

Costs and benefits:
• $25 non-refundable registration fee
• Optional University of Utah credit for an additional $175
• Meals, lodging and transportation during the workshop
• $400 stipend
